Colouring for adults and children

We'd love to see your creations!

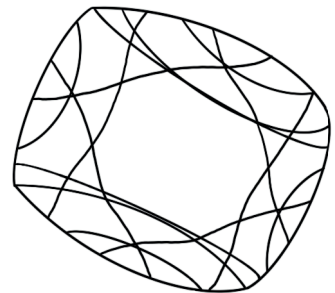

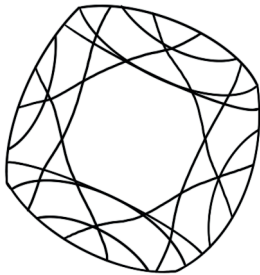

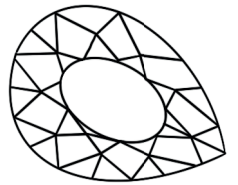

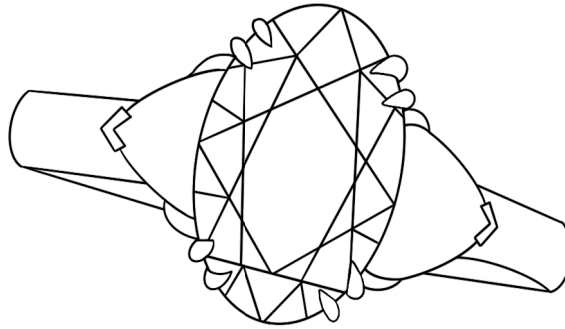

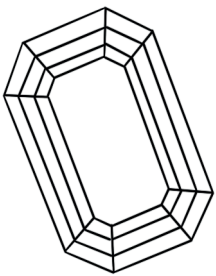

Please share them with us on social media using #HomewithHirsh

HIRSH

LONDON

1. From the same family as sapphires, rubies share their radiant warmth of colour which gives a richness not seen in other red stones.

2. Fine natural rubies are rarer than diamonds, so we love searching for the best rubies to make into beautiful jewellery.

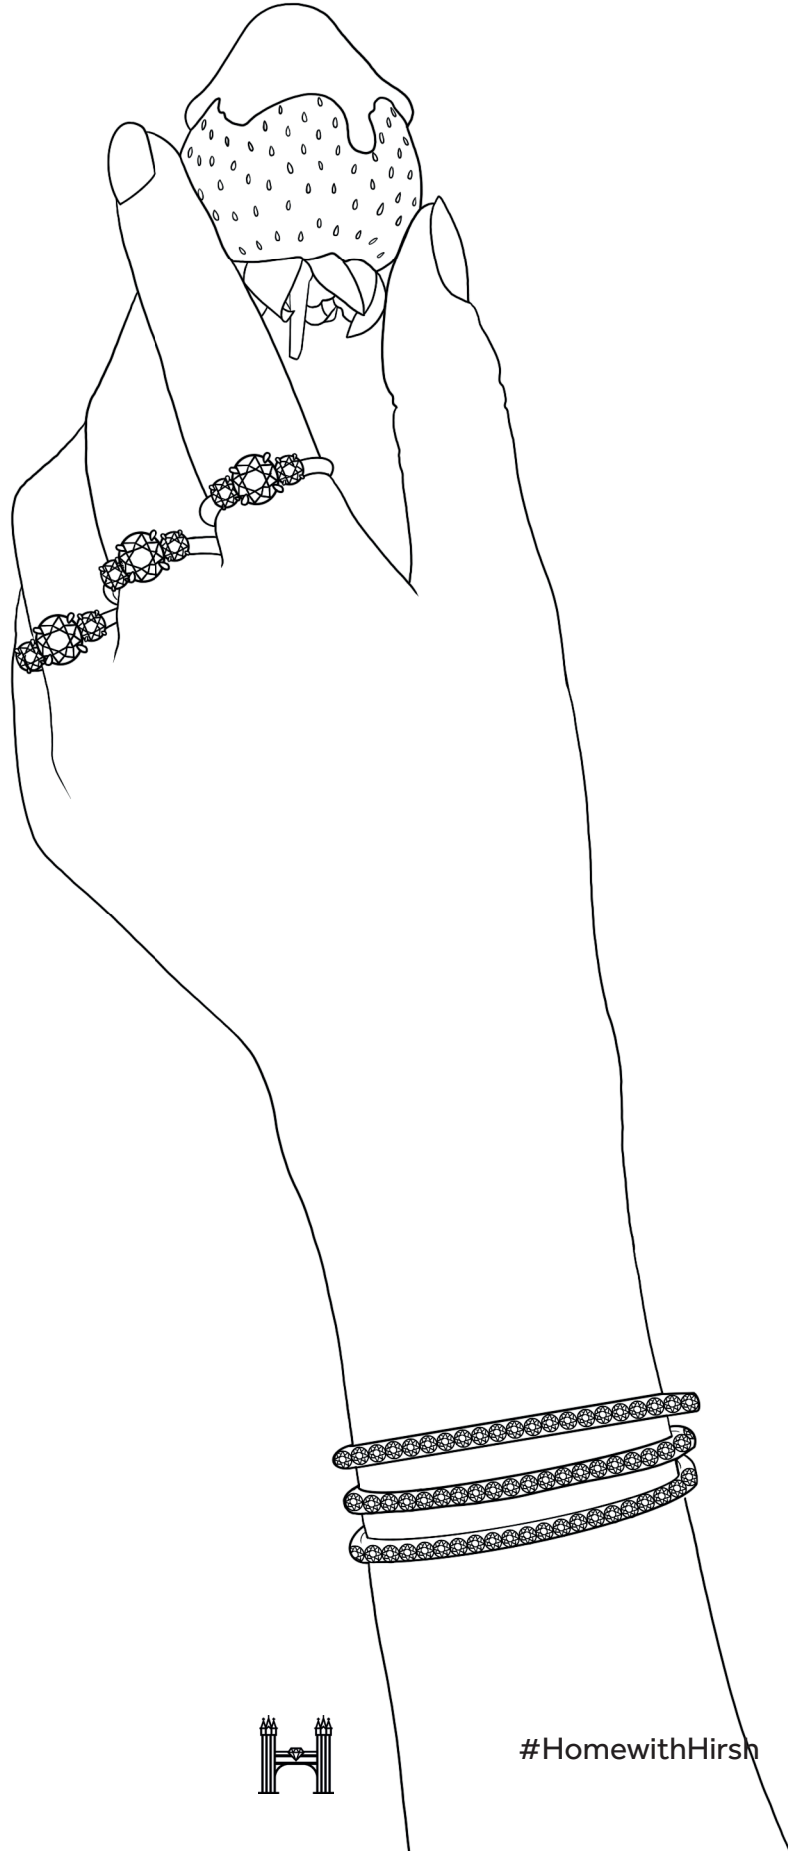

3. One of our all-time favourite pieces is a stunningly rare bracelet featuring ten perfectly matched one carat unheated Burmese rubies.
